

Aures Multi

Electric Instantaneous Water Heater

Aures Multi
9.5kW

Instant heating technology

Instant comfort and unlimited hot water

The Aures Multi electric instantaneous water heater uses electricity to **instantly deliver hot water at the desired temperature** thanks to its **powerful heating element** which heats water as soon as it flows through the unit.

Suitable for installation in small, narrow spaces, such as under a kitchen sink. As a result, the unit is suitable for applications including utility rooms, garages and conservatories, as well as kitchens and bathrooms.

Energy Class 'A'

The ultimate energy efficient solution

Aures is the most efficient way to provide hot water at the point of use. The Aures Multi boasts energy rating 'A', achieving top level of energy efficiency in the electric water heating segment. **All the electricity** taken from the electric network **is converted** into the necessary amount of hot water needed by the user. **The water is not pre-heated** and it is not stocked in a tank: an effective approach to **eliminate heat loss and reduce energy consumption**.

Total safety system

The peace of mind you are longing for

A double thermal cut-out prevents electric shocks, integrating with a total safety device system that **avoids the damage of the product**. If a dangerous voltage is detected, the device will interrupt the electrical circuit as a safety measure.

Aures Multi

Aures Multi is a great way to supply one or several water outlets with instant hot water. Get hot water precisely when needed and in the right amount by simply opening the tap, with no pre-heating time or space necessary to store it.

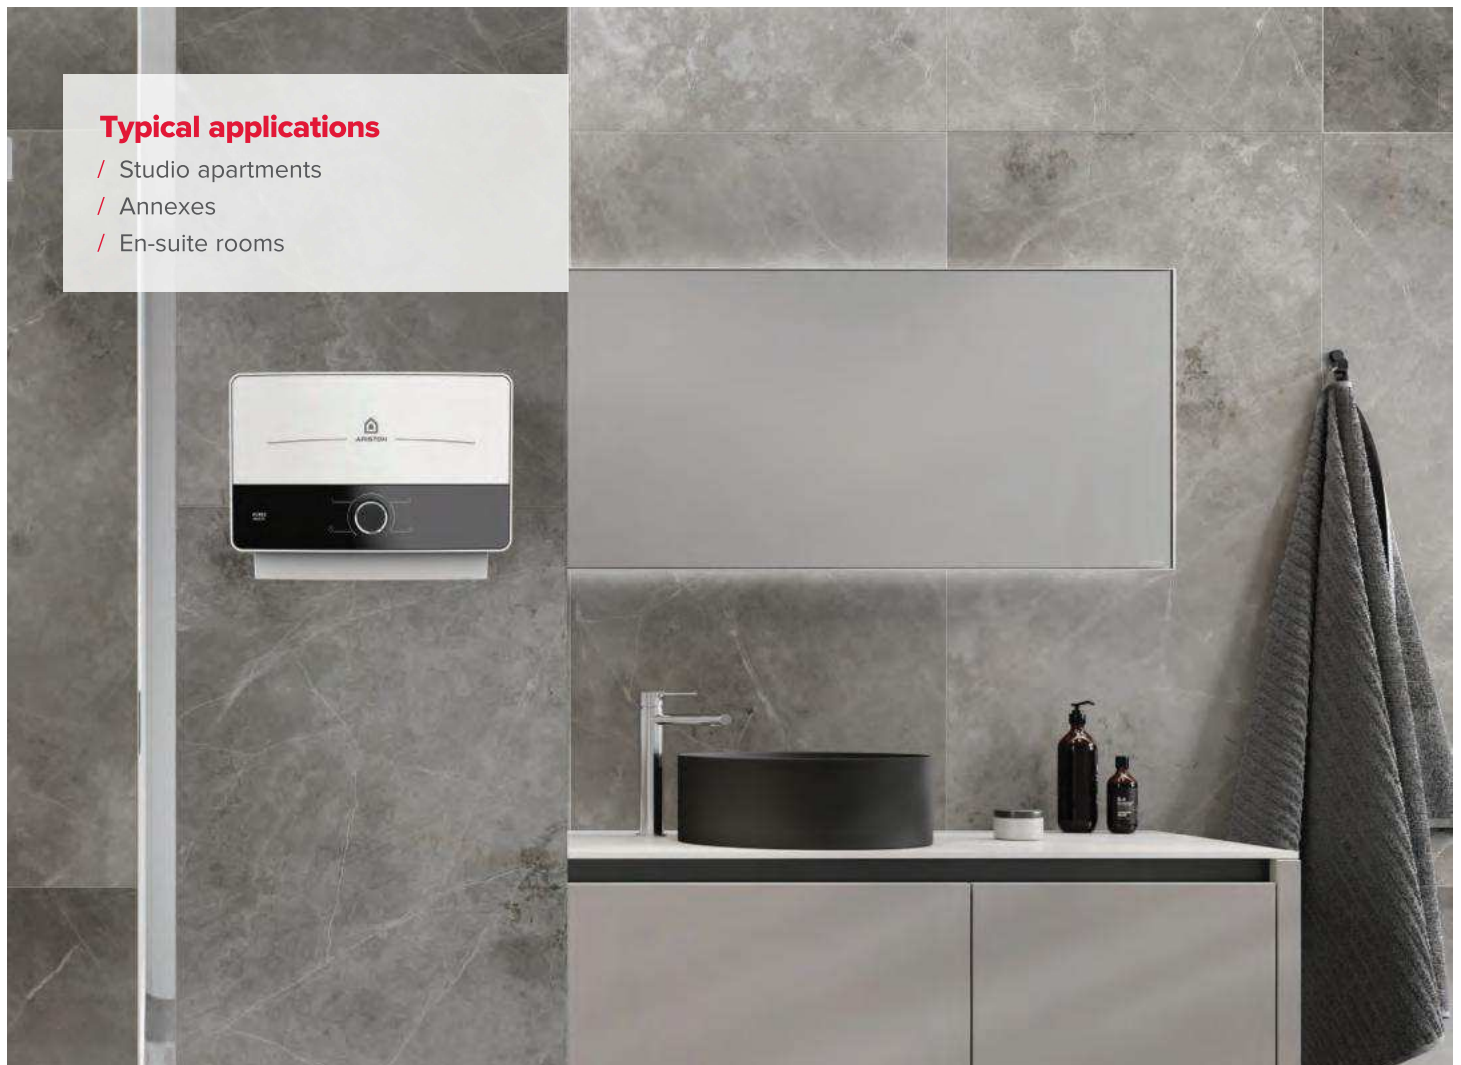

- / Multi point installation for hot water supply for one or multiple point(s)-of-use (not simultaneously)
- / Frontal and intuitive axial regulation to manage 4 setting power
- / Double Safety thermostat: Double Thermal cut out thermostat prevents scalding - Safety system
- / Flow sensor, so the product warms water only when the user turns on the tap
- / Energy saving & efficiency
- / Compact size and easy to install
- / New Italian Premium design
- / 4 knob power settings: Off, Low (1°HE), Med (2°HE), High (1+2° HE)
- / External safety valve
- / Red & Blue Ring in Inlet & Outlet pipe

ENERGY RATING

Typical applications

- / Studio apartments
- / Annexes
- / En-suite rooms
