

LC Landlord Wireless Controller

Consort Claudgen's LC Landlord Control Heating System is an ideal heating system for student accommodation, hotels, or anywhere where a central control unit is required to control the temperature of all heaters in a building or rooms.

It consists of an MLC controller and one or more LC controllers connected to Consort's RX or SL heaters. Room occupants can temporarily adjust the room temperature on the LC for a predetermined length of time before the LC reverts to the programmed temperature.

- Mains or battery powered
- Compatible with all RX and SL heaters
- Open window detection
- Allows user to temporarily increase or decrease the room temperature
- Can control multiple heaters in a room
- Large backlit LCD display for easy reading
- Can be used as signal repeaters to extend the signal range.
- An LC set as a repeater must be mains powered.
- Stylish and sleek modern design
